LOCKERS

Essential attribute for shared spaces

Modular locker cabinets are a versatile solution for secure personal and office items storage, temporary or all-day use. CHOOSE lockers can be useful for both resident and mobile workers or office visitors.

Modular system

Create the most suitable combinations for various spaces by combining CHOOSE locker modules of the same height (917 mm / 1367 mm / 1817 mm). Also, you can combine doors of two heights (450 mm / 900 mm) and different types – the standard and with cut-out for mail or air circulation.

Personalized lockers

A variety of sizes and box types fulfils different needs – from storing small personal and work tools to big-size items. Customize your locker by using additional items such as metal shelves, name card holder or hook for clothes.

4 types of locks

Along with the traditional key locking, we offer also a combination lock and electronic locks (opened by a code or a card). Lockers with electronic locks can be assigned for personal use or be used by different users for temporary needs.

Colourful combinations

Locker is a great tool to express your company's culture. It could be the place where you add brand colours to your office space.
